Edward S. Godfrey, Jr., M. D., Commissioner

Catalog of
ELECTRICAL TRANSCRIPTIONS
of
RADIO HEALTH PLAYS

Produced by the
Division of Public Health Education

B. R. Rickards, S. B.
Director

T. C. Stowell, A. B.
Asst. Director

GENERAL INFORMATION

The electrical transcriptions in this catalog are designed primarily for 15-minute radio programs. They are also adapted for use with suitable reproducing equipment (turntable must revolve at 33-1/3 R.P.M.) before clubs, mass meetings or any gathering interested in health subjects.

This catalog consists of two parts:

PART I

(Next succeeding 8 pages, Records No. 4078 to 366)

These records are described on the next page.

They may be purchased for \$2.50 each.

They may be rented for \$1.00 for the first public presentation.

(For rental cost of subsequent presentations, inquire of the undersigned, giving full particulars of intended use.)

PART II

(Records No. 374 and following, listed on yellow pages.)

These records are described on the first page of this section of the catalog.

They may be purchased for \$3.50 each.

They may be rented for \$1.50 for the first public presentation.

(For rental cost of subsequent presentations, inquire of the undersigned, giving full particulars of intended use.)

The New York State Department of Health does not sell or rent these recordings directly, but has made arrangements for their sale at the same price the Department pays for each record, and for their rental at the nominal fee noted above.

The sale or rental of these records is subject to approval of the State Department of Health. Therefore, please make all applications for purchase or rental to the undersigned, but do not send payments with applications.

For further information concerning these recordings generally, individual records, subject matter, or other details, apply to

Thomas C. Stowell

Assistant Director of Public Health Education

CATALOG OF
ELECTRICAL TRANSCRIPTIONS
of

RADIO HEALTH PLAYS

NOTE: Recordings listed in this catalog include plays only, with no opening or closing announcements and no mention of the New York State Department of Health. Approximate playing time of each of these records is ten minutes. Special opening and closing announcements accompany each record which may be revised easily to meet any special broadcasting or reproducing needs. In addition to the recordings in this catalog, the Department has 23 other recordings of plays of THE HEALTH HUNTERS series including opening and closing announcements to fill a full 15-minute period. These are not included in the catalog because they are not suitable for any use except broadcasting in New York State.

A few records which are of exceptionally good quality or have proved particularly popular are indicated by a star. (*)

- | | | |
|------|---|---|
| 4078 | Grandpa Pepper Dissipates | Health News; improving health conditions in the State.
(Should be used after No. 4079) |
| 4079 | Grandpa Pepper Learns About
"Rheumatiz" | Self medication and worthless patent medicine "cures". |
| 4080 | Dr. Jones Proves a Good
Prophet | Facts and advice on measles. |
| 4081 | Lucy Felton is "Threatened
with Pneumonia" | Capillary bronchitis, colds and pneumonia. |
| 4083 | Aunt Gusty Learns About
Vital Statistics | The meaning and value of vital statistics. |
| 4084 | Bess Tries a Food Experiment | Suggestions on healthful and economical foods. |
| 4086 | A New Kind of Spelling Bee | Public health terms and information. |
| 4087 | A Tragedy in Utopia | Venereal diseases and sex instruction for children. |
| 4088 | The Health Officer's Leisure
Hour | Duties of a health officer. |
| 4089 | A Temper Tantrum is Solved | Classes for hard of hearing and deaf children. |
| 4090 | Mother's Day in Utopia | The real meaning of Mother's Day. |
| 4091 | Bobby to the Rescue | Dangers of carbon monoxide poisoning. |

NINETEENTH CENTURY

OF

RADIO HEALTH PLAYS

NOTE: Recordings listed in this catalog include plays only, with no opening or closing announcements and no mention of the New York State Department of Health. Approximate playing time of each of these records is ten minutes. Special opening and closing announcements accompany each record which may be revised easily to meet any special broadcasting or recording needs. In addition to the recordings in this catalog, the Department has 28 other recordings of plays of THE HEALTH MATTERS series including opening and closing announcements to fill a full 15-minute period. These are not included in the catalog because they are not suitable for any use except broadcasting in New York State.

A few records which are of exceptionally good quality or have proved particularly popular are indicated by a star, (*)

4078	Grandpa Pepper Disappears	Health News; Improving health conditions in the State. (Should be used after No. 4079)
4079	Grandpa Pepper Learns About "Rheumatism"	Self medication and workless patent medicine "cures".

|-------|---|---|
| 328 | By Accident | Home accidents as a chief cause of death; home accidents and their prevention. |
| 329 | Tony's Tomato | School lunches and suggestions as to their contents, preparation and arrangement. |
| 330 | The Shortest Way Home | Automobile accidents and the danger of driving while under the influence of liquor. |
| 331 | Sensible Mollie | Diphtheria immunization - a baby dies and another is saved by her mother's foresight. |
| *332 | Dr. Jones Has Something to Say on Cancer Quacks | Cancer Quacks. |
| 333 | The Great Bear Hunt | Hunting accidents. |
| 334 | Joe Is Going to Graduate | Mechanical aids for the hard of hearing- Lip reading and voice culture classes in schools. |
| 335 | Anabel Can't Sleep a Wink | Some common sense ideas concerning insomnia. |
| * 336 | Pete Takes Charge | A typical example of the work and place of a public health nurse in the community. |
| 337 | A Double Thanksgiving | Dangers of carbon monoxide poisoning. |
| 338 | Bob and Bess Trim the Tree | Sensible celebration of Christmas and selection of safe toys. |
| 339 | A Good Investment | The value of Christmas seal sales in tuberculosis work. |
| * 340 | A Matter of Girth Control | Dr. Jones receives a visit from Santa Claus, and gives him some good advice on diet and reducing. |
| * 341 | Uncle Henry Wants His Dollar Back | Method of operation of eyeglass fakers and the advisability of securing competent and reliable advice for correction of eye faults. |
| 342 | An Easy Way to Save Money | Common colds -- the danger and financial cost of neglecting them. |

- | | | |
|-----|--|--|
| 343 | Sandy MacGregor Loses His
Crutches | Mental Hygiene - formation of behavior
patterns and importance of training
children to think and act for them-
selves. |
| 344 | Soap, Water and Electricity | Home accidents - especially in the bath-
room and bathtub. |
| 345 | Elizabeth Runs Again | Orthopedics - a story of a crippled child
who is returned to a useful life by
modern orthopedic treatment. |
| 346 | Betty Wins | Social Hygiene - the importance and value
of physical examination before marriage;
Wasserman tests. |
| 347 | Only a Cold | Pneumonia - danger of ignoring common
colds; serum treatment for pneumonia. |
| 348 | You <u>Can</u> Do Something About It | Cancer - exploding some old beliefs on
how cancer occurs, and emphasizing the
importance of early diagnosis and
treatment. |
| 349 | A Portrait of Washington | Smallpox - the necessity for continuous
attention to smallpox vaccination;
also presents George Washington as
one of the earliest to realize that
public health can be bought. |
| 350 | A Horse on Henry | Nuisances (also typhoid fever and carriers)
- explodes some theories regarding
nuisances as health menaces. |
| 351 | Zenas Listens to the Doctor's
Heart | Periodic physical examinations - Mayor
Green is careful of his new car but
neglects his physique until Dr. Jones
rouses him. |
| 352 | Bottles, Cans and Sodamints | Fretting - the futility of worrying over
petty details and unimportant things. |
| 353 | Serum to Windham | Pneumonia treatment - a dramatization of
a real life story of correct procedure
in pneumonia treatment - good action
story. |
| 354 | Uncle Henry's April Fool | Charlatanism in medicine - quack medicines
and quack doctors, and their methods
and dangers. |
| 355 | Help in Geometry - And Other
Things | Vision - defective vision, its effect on
work and health, and its correction. |

1. The first part of the report is a general introduction to the subject of the study.

2. The second part of the report is a detailed description of the methods used in the study.

3. The third part of the report is a presentation of the results of the study.

4. The fourth part of the report is a discussion of the results of the study and their implications.

5. The fifth part of the report is a conclusion and a list of references.

6. The sixth part of the report is a list of appendices.

7. The seventh part of the report is a list of figures and tables.

8. The eighth part of the report is a list of footnotes.

9. The ninth part of the report is a list of abbreviations.

10. The tenth part of the report is a list of symbols.

11. The eleventh part of the report is a list of definitions.

12. The twelfth part of the report is a list of acknowledgments.

13. The thirteenth part of the report is a list of references.

14. The fourteenth part of the report is a list of references.

15. The fifteenth part of the report is a list of references.

16. The sixteenth part of the report is a list of references.

17. The seventeenth part of the report is a list of references.

18. The eighteenth part of the report is a list of references.

19. The nineteenth part of the report is a list of references.

20. The twentieth part of the report is a list of references.

21. The twenty-first part of the report is a list of references.

22. The twenty-second part of the report is a list of references.

23. The twenty-third part of the report is a list of references.

24. The twenty-fourth part of the report is a list of references.

25. The twenty-fifth part of the report is a list of references.

26. The twenty-sixth part of the report is a list of references.

- | | | |
|-------|--------------------------------------|---|
| 356-A | Dr. Jones Decides on a Health Forum | May Day Child Health Day - develops the proposition that the best health protection for every child is healthy and intelligent parents, and that child health begins with the grandparents. |
| *357 | Betty Goes in Training | Prenatal care of the expectant mother-- the part both mother and father should take in preparing for the baby's arrival. Excellent for Mother's Day. |
| 358 | Two Girls in Shorts | The value of organized summer camps in providing care, training, education and amusement for young people. |
| 359 | Sammy Boasts of "Beads" | Rickets - what rickets is, how the disease is acquired and suggestions for guarding against it. |
| 360 | Mrs. Johnson Has the Last Word | Premature babies - care of the premature baby, emphasizing the great importance of mother's milk. |
| 361 | Courage Marches to Miss Brown | Lip reading classes for adults provide a means of renewing courage to a school teacher whose hearing has become defective. |
| *362 | Spring Fever Hits Utopia | Spring fever and real spring tonics; also treats of ivy poisoning. |
| 363 | Circus Day in Utopia | Diet - careless eating habits and hot weather foods. |
| 364 | Mrs. MacGregor Says She's a Fool | Mental hygiene - popular fallacies regarding mental hygiene. |
| 365 | Dr. Jones Launches a Safety Campaign | Fourth of July - the danger of the use of fireworks; the reasons for and steps to be taken to secure a safe and sane Fourth of July celebration. |
| 366 | Three Men in the Same Boat | Diabetes - some victims of the disease learn a number of helpful and encouraging facts. |

PART II

The recordings on the following pages (yellow) are on 16-inch records. Each contains a complete play of THE HEALTH HUNTERS series. Each also contains a closing announcement concerning the subject matter of the play. Both plays and closing announcements are general in nature and, unless otherwise noted, contain no material which is applicable only to New York State.

If the purchaser or rentor does not wish to use the closing announcement, or wishes to amend it to fit local conditions more closely, the recording may be stopped at the end of the play, without using the closing announcement on the record. To facilitate this, there is a pause on each record between the play and the closing announcement.

The New York State Department of Health will send to each purchaser or rentor of a recording brief mimeographed radio station announcements used by New York stations when originally broadcasting these programs. These may be amended easily to station announcements for other localities. The Department will appreciate mention in local announcements as originating source of the plays, but this should not be considered as a requisite to use of any record.

- | | | |
|-----|--------------------------------|--|
| 374 | A Date With Elizabeth | Cancer - the folly of self-diagnosis and the importance of early treatment. |
| 376 | Bess Takes No Chances | The common cold - its economic costliness and potential dangers. |
| 377 | Never Too Young to Learn | A neglected cut resulting in infection presents an opportunity for emphasizing the importance of early training in personal cleanliness. |
| 378 | Zenas Says It's Worth It | Appendicitis - the importance of avoiding home remedies and securing medical advice in cases of abdominal pain, which may be appendicitis. |
| 379 | It May Be Pneumonia | Emphasizing the necessity for prompt medical attention in possible pneumonia cases and immediate typing. |
| 380 | Creatures of Habit | The importance of early good habit training for the baby; with suggestions to parents as to things to avoid in child training. |
| 381 | Doris Decides | Dental hygiene - a development of the truth that good health often depends on good teeth. |
| 382 | Billy's Hunch | Marihuana - spread and dangers of its use. |
| 383 | Fight Cancer With Knowledge | Sound information and advice on cancer; refers directly to the Women's Field Army of the American Society for the Control of Cancer. |
| 384 | Lynn Makes An Appointment | Tuberculosis - tuberculin tests, early diagnosis, prompt treatment. |
| 385 | Grandpa Pepper Finds a "Pearl" | An amusing and sound lesson in growing old gracefully. |
| 386 | Trimming the Jib | Dr. Jones draws a parallel between model ship building and child health development; a May Day - Child Health Day play. |
| 387 | Never Take a Chance | Prenatal care with special emphasis on importance of the syphilis blood test to the expectant mother; a Mother's Day play which can be used at any time. |
| 388 | Safe at Home | Home accidents and simple things to do to avoid them. |

1. The first part of the report is a general introduction to the subject of the study.

2. The second part of the report is a detailed description of the methods used in the study.

3. The third part of the report is a discussion of the results of the study.

4. The fourth part of the report is a conclusion and a list of references.

5. The fifth part of the report is a list of appendices.

6. The sixth part of the report is a list of figures and tables.

7. The seventh part of the report is a list of abbreviations.

8. The eighth part of the report is a list of symbols.

9. The ninth part of the report is a list of footnotes.

10. The tenth part of the report is a list of references.

11. The eleventh part of the report is a list of appendices.

12. The twelfth part of the report is a list of figures and tables.

13. The thirteenth part of the report is a list of abbreviations.

1. The first part of the report is a general introduction to the subject of the study.

2. The second part of the report is a detailed description of the methods used in the study.

3. The third part of the report is a discussion of the results of the study.

4. The fourth part of the report is a conclusion and a list of references.

9. The ninth part of the report is a list of footnotes.

10. The tenth part of the report is a list of references.

11. The eleventh part of the report is a list of appendices.

12. The twelfth part of the report is a list of figures and tables.

13. The thirteenth part of the report is a list of abbreviations.

14. The fourteenth part of the report is a list of symbols.

15. The fifteenth part of the report is a list of footnotes.

16. The sixteenth part of the report is a list of references.

- | | | |
|-----|---|---|
| 401 | Toby, the Diplomat | Lighting. Suggests proper lighting facilities and recommends having the children's eyes tested at the beginning of school year. |
| 402 | Hurry | Safety. A play for pedestrians inclined to rush through traffic. Calls attention to traffic rules. |
| 403 | When Is A Nuisance Not A Nuisance | Nuisances. Describes public health nuisances as distinguished from ordinary nuisances not the concern of the health officer. |
| 404 | He Puffed and He Puffed - No Insurance | Overweight. Discusses causes and possible results of overweight - heart disease, diabetes, etc. |
| 405 | Sim Says Deer is Dear | Hunting Accidents. Points out precautions to be observed in avoiding hunting accidents. |
| 406 | The Children Shouldn't Have to Pay | Diphtheria. Brings out deplorable results of failure to have young children inoculated against diphtheria. |
| 407 | True or "False" | Dental Hygiene. Recommends making regular visits to the dentist a habit. |
| 408 | Open Eyes - Open Ears | Defective hearing in school children. Portrays difficulties of students with defective hearing and emphasizes need for periodic examination of eyes and ears. |
| 409 | Money for Nurses | Public Health Nursing. Points out value of public health nursing service to community. Mentions variety of duties she performs. |
| 410 | Girls With Sense | Cancer. This play reverses usual procedure. Tells story of college girl who dealt with potential cancer. |
| 411 | They'll Get You If You Don't Watch Out! | The Common Cold. Cites danger of exposure to weather conditions, with particular reference to older people. |
| 412 | Doris' Responsibility | Pneumonia. (Sequel to 411) Discusses pneumonia serum and value of promptness in its administration. |
| 413 | Aunt Gusty's All right | Carbon Monoxide. Principal idea is that persons well aware of dangers of carbon monoxide poisoning are sometimes its victims. |

1900-1901

1. 1940年12月1日，国民党政府任命陈立夫为中央党部秘书长。

1950-1951

- 414 Billy's Story Tuberculosis. Xmas Seals. Dramatizes Xmas Seal of 1938. Explains how sale of seals saves lives.
- 415 Christmas Phantasy Toys for Convalescent Children. Describes suitable toys for children confined to hospital beds. Good early Christmas holiday program.
- 416 You Never Can Tell Tonsillitis. An interview between "Dr. Jones" and a young patient who is more worried over a pageant than over her infected tonsils.
- 417 Another New Cancer "Cure" Cancer. Demonstrates one of the many methods employed by quacks who claim to have cures for cancer.
- 418 At Her Wits' End Nervous exhaustion. Recommends rest and relaxation.
- 420 No Respector of Persons Syphilis. Points out importance of premarital law requiring Wassermann tests for syphilis.
- 420 This Little Pig Went to Market Trichinosis. Uses as subject, sausage containing uncooked pork, as one possibility in the spread of trichinosis.
- 421 Two Boys and a Car Motor Accidents. Stresses danger of fast driving - particularly on icy roads.
- 422 "Sleep that Knits ~" Sleep. Causes of sleeplessness, both real and imaginary; the place of rest and relaxation in "curative treatment" for the difficulty.
- 423 Headaches ~ and Other Headaches Headache. Points out that headache is a symptom, not a disease and may be the forerunner of more serious illness. Advises consulting physician.
- 424 Catch as Catch Can Measles. Deals particularly with the danger to the very young children from this disease.
- 425 The Milk of Human Justice Raw Milk. Written in the form of a trial before a Justice of the Peace. Defendant accused of selling raw milk, and selling milk without a permit.
- 426 Grandpa Pepper Learns About "Rheumatiz" Same as Record #4079, except that it is designed for a full 15-minute program, with theme music and opening and closing announcements and, as such, is suitable only for use in New York State. However, it may be used elsewhere in the same way as all the other records by playing only the dramatic part of the record and substituting station opening and closing announcements.

- 427 Doris "Gets Even" Teeth. Emphasizes dental care for teeth of young children - particularly the baby or first teeth.
- 428 Look, As Well as Listen Tuberculosis. Emphasizes X-ray for early diagnosis, and danger of contact with the tuberculous.
- 429 No Admittance Scarlet Fever. Describes the precautions in care and isolation of scarlet fever cases.
- 430 Accidents Aren't Cheap Home accidents. Describes certain common, preventable accidents in the home.
- 431 Hard to Convince Child Care. Discusses deleterious effect of conflict between modern ideas of young mother regarding child care, and those of grandmother, with particular reference to feeding schedules.
- 432 Colors Count Sight. Emphasizes need for attention to minor defects in sight, by competent eye physician.
- 433 Dangerous Dreams Drugs. Warns of danger of taking common drugs without first consulting physician.
- 434 The Road to Life Cancer. Deals with the dangers of delay in treatment of skin cancer.
- 435 Be Ready! Diphtheria. Memorial Day allegory dealing with diphtheria prevention - toxoid inoculation.
- 436 The Poor Fish! Obesity. Tells about the good-natured fat man who is heading toward dangerous ills.
- 437 Where There's Smoke There's Fire Fourth of July Accidents. Cites numerous dangers of fireworks, especially when home made.
- 438 You Need a Vacation Rest. Suggests planning vacation for rest and recreation rather than strenuous and unaccustomed sports.
- 439 Primroses Ragweed. Discusses new law on mowing of roadside weeds.
- 440 Keep the Cover On Typhoid Fever. Points out difficulties of discovering source of typhoid fever, particularly in rural sections.

- | | | |
|-----|-------------------------------------|--|
| 441 | Sense and Sensitivity | Vacation Hazards. Stresses importance of avoiding direct rays of summer sun for extended periods; mentions swimming "don'ts". |
| 442 | Dr. Jones' Kind | Camps. Points certain dangers to look out for in selecting camps for children. |
| 443 | Pretty But Poisonous | Poison Ivy; Sumac. Emphasizes importance of recognizing dangerous poisonous plants and teaching children concerning them. |
| 444 | Great Things Are Born of Silence | Rest. Recommends complete relaxation, quiet, loafing, for frayed nerves. A vacation play. |
| 445 | Deadly Second Summer | Summer care of babies. |
| 446 | Who's Afraid | Smallpox. Emphasizes need for vaccination of children at early age and at subsequent intervals. |
| 447 | Bob is a Careful Guy | Typhoid Fever. Points out danger of drinking from roadside streams. |
| 448 | The Fifth Wheel | Fatherhood. Offers suggestions to young parents. |
| 449 | It's No Good | Hay Fever. Emphasizes particularly the necessity for general interest in the destruction of ragweed, the most common cause of hay fever. |
| 450 | Not All Dumbbells Are in Gymnasiums | Automobile accidents and accident prevention campaigns. Emphasizes the dangers of driving when sleepy or fatigued. |
| 451 | Orders is Orders | Rabies. Contains information relative to rabies (hydrophobia) and its treatment, and is of particular interest to parents of young children. |
| 452 | Ready for School | Physical Examinations for School Children. Emphasizes the importance of sending the children to school with sound bodies. |
| 454 | A Murderous Weed | Marihuana. Deals with the danger, from a health standpoint, of smoking cigarettes made from this plant. |
| 455 | Listening for the Deaf | Hearing. Deals with part parents should play in early discovery of defective hearing in children. |

456	Carrots and Carpets	Home Accidents. Points out that the simplest home tasks can result in serious accidents.
457	Public Enemy No. 2	Cancer. Urges early diagnosis and avoidance of quack remedies.
458	The Invader	Diphtheria. Emphasizes the need of early protection against diphtheria in children, particularly babies of six months and over.
459	The Spread	The Common Cold. Depicts how colds interfere with pleasure and business; emphasizes caution during fall and winter months.
460	Guardians of Health	Xmas Seals. Emphasizes necessity for finding cause of spread of tuberculosis and importance of Xmas Seals in procedure for care.
461	On the Job	Red Cross. Uses an airplane crash as subject for emergency aid by this organization.
462	Tony's Souvenir	Eye Injuries - Industrial. Contrasts old and new conditions as to eye protection in factories.
463	Help for Santa Claus	Christmas Toys. Particularly with reference to suitability as to age, mentality, environment, etc.
464	Made in America	Tularemia. (Rabbit Fever) Brings out methods of handling rabbits as protection against infection.
465	Fire or Water?	Poisonous Fumes. Deals with carbon monoxide, dry cleaning fluid, and fire.
466	A Little Piece of Gingham	Prevention Measures. Recalls experiences of past with diseases which are preventable.
467	That's The Worst Of It	Heart Disease. On potential heart trouble from infected tonsils.
468	Grandpa's Wisdom	Pneumonia. Urges early diagnosis and most modern treatment.
469	I'm In The Navy Now	Smallpox and Vaccination. Deals particularly with ways smallpox may be spread, and its control by health authorities.

- 470 Cabbage for Eric Food. With particular reference to vegetables in the winter diet, and their proper cooking.
- 471 What a Dame! Cripples. Discusses the rehabilitation of cripples.
- 472 Priest and Doctor Syphilis. Deals with the possible cooperation of priest and doctor in encouraging early treatment of this disease.
- 473 Whoop-la! Whooping Cough. Deals with isolation of children who have whooping cough, or who have been exposed to it.
- 474 A New Word Cooperation. Advises careful cooperation of patient with doctor for best results.
- 475 The Magic Bag Public Health Nursing. Discusses the services rendered by public health nurses. Emphasizes need for increased nursing service.
- 476 My Toe Hurts Climate. Discusses effects of weather on health conditions.
- 477 "Warning" Pollution. Sounds a warning to persons in flood districts. Drinking water should be boiled to avoid typhoid fever, dysentery, etc.
- 478 A Chip Off the Old Block Accidents. Deals with accidents children frequently suffer from playing with blasting caps found around blasting operations.
- 479-1 Out the Window Restaurants, etc. Uses history of development of sanitation of utensils as theme and urges cooperation in enforcement of law regarding methods of cleansing.
- 480 The Sooner the Better Tuberculosis. Suggests complete physical examinations for the young; emphasizes early diagnosis.
- 481 The Reason Why Cancer. Designed to dispel some of the popular fallacies concerning cancer - especially that the disease itself is hereditary.

1916-17-18

|-----|------------------------|--|
| 511 | A Dollar From You | Red Cross Enrollment. Describes ever available help offered to those in need, made possible in part through annual enrollment fee of one dollar. |
| 512 | Give and Take | The Common Cold. Play which directs its main emphasis to children and the idea that colds are "catching". |
| 513 | Biscuits on the Table | Poison. Refers to careless handling of rat poison. |
| 514 | Good Business | Christmas Seals. Emphasizes drive for eradication of tuberculosis by 1960, the slogan for 1940-41. |
| 515 | Truth or Consequences | Automobile Accidents. Deals particularly with accidents caused by skidding on icy roads. |
| 516 | A Visit To Santa Claus | Xmas Toys. Advises giving suitable gifts to children from standpoint of age and taste. |
| 517 | Live and Learn | Pneumonia. Frequently develops from common colds. Undue exposure to cold and storm to be avoided where possible. |
| 518 | New Years Resolutions | Underweights. Suggests methods for gaining weight within general health limits. |
| 519 | Seven Come Eleven! | Maternal Care. Deals with the fear of future conditions and their effect on the children born now. |
| 520 | Take Care! | Gas Poisoning. Intended to illustrate the ease with which carelessness can bring about disaster. |
| 521 | A.-No. 1 | Annual Physical Examinations. Their neglect the cause of disappointing consequences. |
| 522 | The Concert | Infantile Paralysis. Story of a young girl who found satisfaction in musical talent, in spite of crippling by this disease. |
| 523 | February 5 | Syphilis. Deals with syphilis as a communicable disease, with particular reference to military camps. |

- 524 Back Home Influenza. Emphasizes necessity for care and treatment of early influenza and colds to avoid complications of more dangerous diseases.
- 525 You Can't Play in My Back Yard Measles. Officer O'Malley solves a case and finds the criminal - measles.
- 526 A Practical Dream Home Accidents. A timely warning for housewives who do "housecleaning".
- 527 Just for Luck Health Superstitions. Calls attention to old superstitions on health measures, which often prevent or delay necessary medical and nursing care.
- 528 A Couple of Teeth Dental Hygiene. Emphasizes the need for dental care of the first teeth to avoid facial malformation and possible digestive difficulties.
- 529 The Five O'Clock Train Cancer. Curability, necessity for early diagnosis, useless fears, are touched upon.
- 530 The Killer Tuberculosis. Appeals to the indifferent to be observant for signs of tuberculosis and take steps to prevent its spread.
- 531 A Letter to Bill Automobile Accidents. A lesson in the dangers of "showing off" with excessive speed in an automobile.
- 532 A Strong Defense Nutrition, as a basis for defense. Recommends methods of retaining food value in cooking, and essential variety and quality.
- 533 The Rose Garden Conservation of Eyesight. Points out the value of good eyesight in everyday life and need for care of eyes.
- 534 Three Wise Women Cancer Control Month and annual physical examinations, with the idea that early cancer and early tuberculosis may be discovered in time for cure.
- 535 Alec's Remedy Spring Tonics. Points out the worthlessness of spring tonics and "pick-me-ups" - particularly sulphur and molasses.
- 536 Expensive Babies May Day, Child Health Day. Built around the 1941 slogan, "Milk for Every Child Every Day".

- 537 Escape Whooping Cough. A story for children, pointing out need of isolation and careful following of doctor's instructions.
- 538 Caps and Fingers Explosives. Warns against careless handling of blasting caps, particularly by children, or those not familiar with their explosive nature.
- 539 "The Little Foxes Spoil the Vines" Infection. Describes simple injury which may result seriously, and emphasizes necessity for attention before infection develops.
- 540 Big Dividends Milk. Emphasizes the value of milk as a food and urges greater consumption. Written for Milk Month. (June)
- 541 Cutting Corners Summer Camps. Recommends carefully selected camps as aids to the mental, social and physical development of the child.
- 542 The Mayor's Vacation Vacation Precautions. Reminds vacationists of simple precautions which should be taken to avoid illness and mishap.
- 543 Three Times and Out Swimming - Accidents. Deals with simple accidents which easily result in loss of life if immediate help is not available.
- 544 Peace and Quiet Fourth of July. Points out the necessity for general cooperation, if property destruction and accidents are to be avoided on the 4th of July.
- 545 Bait, Burns and Blisters Sunburn. The discomfort and danger of over-exposure to the sun.
- 546 It's Poisonous! Poison Ivy. Describes the plant, the result of handling, and treatment.
- 547 Helen's Appointment Dental Hygiene. Pertains particularly to importance of the care of children's teeth at an early age.
- 548 The Question Box Answers many questions regarding diabetes.
- 549 A Couple of Bullheads Drowning. Relates to drowning accidents through carelessness while fishing from a small boat, on a lake.

1	1. The first of these is the fact that the population of the world is increasing at a rapid rate. This is due to a number of factors, including improved medical care, increased food production, and a decline in the death rate.	101
2	2. The second factor is the increasing urbanization of the world. More and more people are moving from rural areas to cities, where they are concentrated in a small area. This has led to a number of problems, including overcrowding, pollution, and a loss of traditional values.	102
3	3. The third factor is the increasing technological advancement of the world. This has led to a number of new inventions and discoveries, which have improved the quality of life for many people. However, it has also led to a number of problems, including environmental pollution and the loss of traditional crafts.	103
4	4. The fourth factor is the increasing globalization of the world. This has led to a number of new opportunities for people to travel and work in other parts of the world. However, it has also led to a number of problems, including the loss of traditional cultures and the spread of disease.	104
5	5. The fifth factor is the increasing environmental awareness of the world. This has led to a number of new movements and organizations, which are working to protect the environment. However, it has also led to a number of problems, including the loss of traditional land use and the spread of environmental pollution.	105
6	6. The sixth factor is the increasing economic inequality of the world. This has led to a number of new movements and organizations, which are working to reduce the gap between the rich and the poor. However, it has also led to a number of problems, including the loss of traditional values and the spread of crime.	106
7	7. The seventh factor is the increasing political instability of the world. This has led to a number of new movements and organizations, which are working to bring about change. However, it has also led to a number of problems, including the loss of traditional values and the spread of violence.	107
8	8. The eighth factor is the increasing cultural diversity of the world. This has led to a number of new movements and organizations, which are working to celebrate and preserve different cultures. However, it has also led to a number of problems, including the loss of traditional values and the spread of intolerance.	108
9	9. The ninth factor is the increasing religious diversity of the world. This has led to a number of new movements and organizations, which are working to promote understanding and respect between different religions. However, it has also led to a number of problems, including the loss of traditional values and the spread of intolerance.	109
10	10. The tenth factor is the increasing scientific advancement of the world. This has led to a number of new inventions and discoveries, which have improved the quality of life for many people. However, it has also led to a number of problems, including environmental pollution and the loss of traditional crafts.	110

- 550 A Note from Dr. Jones Rabies. Misplaced sympathy for pets sometimes leads to disaster for the animal and risk to its owner, as is pointed out in this script.
- 551 Time to Learn Farm Accidents! Mentions different forms of farm accidents and the need for care to prevent them.
- 552 Before the Bell Rings Physical Examinations for School Children.
- 553 Grandma's Bouquet Hay Fever. Describes ragweed and explains why it causes hay fever. Points out that even persons otherwise well, readily become victims if exposed to quantities of ragweed pollen.
- 554 A "Month Off" Postvacation. Discusses vacations in retrospect and recommends vacations to suit the taste of the individual, so far as possible, with plenty of time for rest and relaxation.
- 555 The Two-Year Old Infantile Paralysis. Urges avoiding panic when rumors of this disease get about, and mentions methods of prevention.
- 556 Rain or Shine Public Health Nursing. Describes amusing incidents a public health nurse sometimes meets in her daily round of duties.
- 557 The Fog Takes up "fog" as a cause of motor accidents; warns against speeding.
- 558 What's What Cancer. Emphasizes particularly early diagnosis and the effort being made to persuade the public of the necessity of general physical examinations.
- 559 A Square Meal Diet and Nutrition. Advises against accepting suggestions from neighbors and friends on the subject of diet. See your doctor emphasis.
- 560 The Judge Defective Hearing. Recommends early care of defective hearing by competent physician and mentions various methods of alleviation.
- 561 Bucks Ain't Dough Hunting and Hunting Accidents. Emphasizes safety rules to follow in hunting and the handling of firearms.

564	Time to be Fussy	Carbon Monoxide Poisoning. Intended to describe the type of incident which occurs commonly and frequently results in fatalities.
565	The Trouble Shooter	Red Cross Roll Call. Tells story intended to demonstrate little known assistance rendered by Red Cross.
566	Adequate Diet	Nutrition. Prepared in particular for "Nutrition Fortnight". Recommends adequate diet for industrial workers.
567	The Mayor's Cold	The Common Cold. Ties in nutrition as a factor in the prevention of colds, particularly in children.
568	The Opened Door	Xmas Seals. Emphasizes case-finding as a means of eradicating tuberculosis. Built around an incident of case discovery through the Xmas Seal campaign.
569	The Day After Christmas	A X-mas play designed to bring out the importance of discrimination in the selection of toys for children of different ages.
570	'Twixt the Cup and the Lip	Restaurant Sanitation. With the help of a State inspector, a hot dog stand "goes to town" on clean dishes and glasses.
571	Amended Resolutions	Appendicitis. Warns against laxatives for stomach or abdominal pain, except under a physician's direction.
572	Let's Beat It!	Pneumonia. Intended to emphasize the importance of immediate attention by physician and use of new drugs in cure of this disease.
573	Bandages	Motor Accidents. A picture of what seems to be in the minds of some motorists, portrayed in a dream. Emphasis on less speed to save time.
574	Jim's Preparedness Plans	Nervous Worry. Relates to development of nervous fear due to war news and its disastrous effects on excitable temperaments.
575	The Imposter	Cancer Quacks. Story of possible serious results from accepting advice of cancer quacks.
576	A Poor Defense	Syphilis, with particular reference to military camps.

1. The first part of the paper is devoted to a general discussion of the problem of the origin of life. It is shown that the problem is one of the most important and most difficult in the history of science.

2. The second part of the paper is devoted to a discussion of the various theories of the origin of life. It is shown that the most plausible theory is that of spontaneous generation.

3. The third part of the paper is devoted to a discussion of the evidence in favor of spontaneous generation. It is shown that the evidence is very strong and conclusive.

4. The fourth part of the paper is devoted to a discussion of the objections to spontaneous generation. It is shown that the objections are not valid and that the evidence in favor of spontaneous generation is overwhelming.

5. The fifth part of the paper is devoted to a discussion of the implications of the theory of spontaneous generation. It is shown that the theory has important implications for the study of the origin of life and for the study of the history of science.

6. The sixth part of the paper is devoted to a discussion of the conclusions of the paper. It is shown that the theory of spontaneous generation is the most plausible theory of the origin of life and that the evidence in favor of it is very strong and conclusive.

7. The seventh part of the paper is devoted to a discussion of the future of the study of the origin of life. It is shown that the study of the origin of life is one of the most important and most difficult in the history of science and that it is likely to remain so for many years to come.

8. The eighth part of the paper is devoted to a discussion of the bibliography of the paper. It is shown that the bibliography is very extensive and that it covers a wide range of subjects.

9. The ninth part of the paper is devoted to a discussion of the acknowledgments of the paper. It is shown that the author wishes to thank the following persons for their help and assistance:

10. The tenth part of the paper is devoted to a discussion of the index of the paper. It is shown that the index is very complete and that it covers all the subjects mentioned in the paper.

11. The eleventh part of the paper is devoted to a discussion of the conclusions of the paper. It is shown that the theory of spontaneous generation is the most plausible theory of the origin of life and that the evidence in favor of it is very strong and conclusive.

12. The twelfth part of the paper is devoted to a discussion of the future of the study of the origin of life. It is shown that the study of the origin of life is one of the most important and most difficult in the history of science and that it is likely to remain so for many years to come.

13. The thirteenth part of the paper is devoted to a discussion of the bibliography of the paper. It is shown that the bibliography is very extensive and that it covers a wide range of subjects.

1	General discussion of the problem of the origin of life
2	Discussion of the various theories of the origin of life
3	Discussion of the evidence in favor of spontaneous generation
4	Discussion of the objections to spontaneous generation
5	Discussion of the implications of the theory of spontaneous generation
6	Discussion of the conclusions of the paper
7	Discussion of the future of the study of the origin of life
8	Discussion of the bibliography of the paper
9	Discussion of the acknowledgments of the paper
10	Discussion of the index of the paper
11	Discussion of the conclusions of the paper
12	Discussion of the future of the study of the origin of life
13	Discussion of the bibliography of the paper

|-----|-----------------------|---|
| 577 | A Little Knowledge | Home Accidents. Discusses unnecessary home accidents which take the doctor's time and mount up to total costs of hundreds of thousands of dollars annually. |
| 578 | The Business Meeting | Reducing. Points out one of the most common reasons for overweight and suggests the remedy. |
| 579 | Babies First | Maternal Care. Stresses prenatal care, using rural surroundings as locale. |
| 580 | Let's Walk | Keeping up to par. Talks about wisdom of giving attention to general health, exercise, food, sleep. |
| 584 | Who's To Blame? | Communicability of Colds. Points out how colds are spread, danger to young children with little reserve energy, costly to all concerned. |
| 585 | Heartache! | Heart Disease Fear. Deals with the mistaken idea that pain in the region of the heart is necessarily caused by a defective heart. |
| 586 | Dental Defense | Dental Hygiene. Emphasizes early dental care for later life emergencies. |
| 587 | A Poor Start | Eyesight. A reminder that eyesight should be guarded by care at birth, by eye specialists later; by parents for their children all the time. |
| 588 | The Photograph Album | Cancer Control. Emphasizes the dangerous part that fear plays in cancer control and early diagnosis. |
| 589 | Working for Uncle Sam | Diphtheria Immunization. Deals with the question of diphtheria epidemics which may be brought about through new population due to war activities. |
| 590 | The Disappointment | Tuberculosis. Deals with imagination as a factor in tuberculosis control. |
| 591 | The Solution | Nurses Aides. A special subject covered because of emergency need of nurse's aides for the duration. |
| 592 | A Mess of Bels | Spring Fever. Recommends fresh air, change of scene for insomnia, and lassitude. |

- 593 No Place Like Home Home Accidents. Urges that surveys be made of homes and that common hazards in and about the home be corrected.
- 594 Utopia Has a Blackout Blackout Accidents. Outlines methods for preventing accidents in the home and on the street during blackouts in communities.
- 595 A Big Success Food Poisoning. Church Suppers. Deals with the preparation of food for serving at church and other organization suppers and recommends methods to prevent gastroenteritis, typhoid fever, etc., following such occasions.
- 596 Overall's Ghost Unusual Accidents. Describes unusual but not entirely uncommon accidents, which with a little care can be avoided.
- 597 The Long Way 'Round Blasting Caps. Deals with danger of handling blasting caps by adults as well as children, and points out need for better understanding of these articles and their dangerous composition.
- 598 The Colonel's Messenger Milk. Urges more generous use of milk in every day diet for both children and adults.
- 599 Feet Foremost Foot Wear and Care. The role suitable shoes play in the relief of painful feet.
- 600 The Lion's Den Farm Accidents. Deals with accidents such as stepping on rusty nails; being pursued by an angry bull, etc., common to rural life but preventable if proper precautions are taken.
- 601 On the Shelf Poison Ivy. Describes a common stance of ivy poisoning, methods of treatment and suggestions for avoiding the plant.
- 602 Your Own Back Yard Wartime Vacations. Mentions various plans for vacations at home, for the duration.
- 603 A Successful Hunt Trichinosis. Intended to illustrate the ease with which serious illness may develop, if otherwise palatable pork is not thoroughly cooked before eating.

- 604 Early Opportunities
Cancer. Describes one common cause of cancer of the mouth - sharp teeth.
- 605 The Carnival
Health Precautions in Wartime. Calls attention to various common precautions, which should be observed with particular care during wartime, for maintenance of normal health.
- 606 Who's A Hyena?
Swimming. Emphasizes simple precautions to be taken to make swimming a healthful and enjoyable pastime.
- 607 The Inventory
Accidents Through Use of Misplaced Medicine Containers. Points out possibility of serious and even fatal accidents through careless placing of bottles and boxes containing various remedies.
- 608 The Door Key
Nervous Tension. Discusses nervous tension brought about by engaging in an excess of local activities in the mistaken idea that they are more important than individual health.
- 609 Keep 'Em Smiling
Annual Physical Examinations for School Children. Emphasizes need for examination of school children annually before starting new school year, with particular reference to eyes, teeth, tonsils, hearing, etc.
- 610 A Dog's Tale
Rabies; False Rumors. Recommends extreme caution in the handling of unknown dogs, the elimination of strays, particularly if cases of rabid dogs have been reported in the vicinity, and proper medical care for dogs that are sick but not rabid.
- 611 Manpower
Farm Accidents. Indicates various ways in which time and energy can be saved by preventing common accidents around the home and the farm.
- 612 Eleven O'Clock
Bicycle Accidents. Reminds those who have taken to bicycle riding that serious accidents can easily occur if traffic rules are not observed and care in riding exercised.

- 613 The Bucket Brigade
Public Health Nursing. Intended to encourage better home care for children and the maintenance of already existing public health nursing staffs for local service.
- 614 The Sermon of the Tree
Dental Hygiene. Uses tree surgery as an illustration of the possibilities of dental care and urges regular trips to dentist.
- 615 A Hare Raising Experience
Prevention of hunting accidents through the proper handling of firearms. Emphasizes the danger of contracting tularemia from rabbits and points out rules that every hunter should follow.
- 616 Victory Beans
Food Poisoning. Brings up points regarding possibilities of botulism from eating home-canned vegetables, not commonly understood.
- 617 Rejected
Hearing. Advises against neglect of hearing defects and suggests ways of augmenting weakened hearing facility.
- 618 Room for Two
Reducing. Reiterates the simplest methods for reducing weight - less food, care in its selection, permanent care in choice of food.
- 619 The North Pole
The Common Cold. Discusses particularly methods of spread and resultant loss of man hours.
- 620 Kitchen Casualty
Carbon Monoxide Poisoning. Advises care in making adjustments from oil to coal-burning heaters; and proper care of kitchen cook stoves and heaters, to avoid carbon monoxide seepage.
- 621 Better Than Nothing
Pneumonia. Points out need of conserving general health to avoid loss of time during scarcity of available doctors and nurses, particularly the avoidance of communicable diseases such as colds and pneumonia.
- 622 Keep Away!
Whooping Cough. Warns against contact of small children with others having whooping cough; tells of vaccine now being used as preventive.
- 623 The Second Front
Tuberculosis. Annual Xmas Seal Sale. Brings out necessity for continued vigilance in control of tuberculosis, particularly in districts crowded with war plant workers.

- 624 Betty's Xmas Shopping Suitable Xmas Toys. Suggests toys suitable for children of different ages and advises ahead of time planning to avoid fatigue and possible resultant illness.
- 625 Home Defense Home Accidents. Urges more effort in the removal of home hazards and observation of dangerous practices in everyday living.
- 626 The Point of View Imaginary Ills. Advises against over-indulgence in worry and anxiety over non-existent ailments - particularly blood pressure and heart disease.
- 627 Moe Gets Trimmed Following the Doctor's Orders.
- 628 The Wrong Hill Sliding Accidents - Children. Built around a scene common in cities where too little attention is paid to the setting aside of certain streets for sliding during the winter months, or where play is not supervised.
- 629 Hot Off the Griddle Trichinosis. Urges that all pork be thoroughly cooked, particularly where it is to be served to large groups where time may be a factor in the preparation of food.
- 630 The Dark Road Venereal Disease. Deals with dangers to youth living in small communities where camps and war industries exist.
- 631 Smallpox Goes to a Wedding Smallpox. Discusses importance of vaccination of both adults and children in war plant areas in view of influx of workers from points where vaccination is not enforced.
- 632 Peace Work Nurse Recruitment. (For use in wartime only) Emphasizes acute need for nurses in the War Service and advises enrollment in nursing schools in order that trained nurses may be released for assignment to war nursing posts.
- 633 Not By Bread Alone Adequate Meals for Industrial Workers. Points out basic necessities for adequate lunch box meals and advises care in preparing and packing such meals.
- 634 Room for the Newcomers Dental Hygiene. Early dental care is contrasted with results of neglect and delay in visiting dentist.

- 635 Slips and Slides Accidents. Deals with common home accidents as compared with those in factories and war industries.
- 636 The Auction Red Cross Campaign. Built around an auction sale as means of raising money for Red Cross work in national defense.
- 637 Waves and WAAC'S Eyesight. Urges examination and care of eyes during the early years, with particular reference to properly fitting glasses for school children.
- 638 A Gamble Home Safety. Describes minor incidents which often result in major disasters, such as destruction of homes by fire, or serious burns for individuals handling cleaning fluid.
- 639 Balanced Accounts Cancer. Discusses the futility of worry over self-diagnosed cancer but urges those who have suspicious symptoms to seek medical advice immediately.
- 640 The Winner! Tuberculosis - Early Diagnosis. Emphasizes X-ray as best method of determining existence of tuberculosis; early diagnosis as essential for cure.
- 641 A Train of Events Measles. Urges parents to protect children under two years of age from exposure to measles.
- 642 The Three Little Fishes Accident Prevention. Conservation of man power for the war effort by preventing accidents.
- 643 Danger! Home Accidents. Mentions common accidents which occur during housecleaning, and recommends changing the ways people are accustomed to doing certain things.
- 644 Mayflowers Smallpox. (May Day-Child Health Day) Discusses smallpox immunization as particularly important, for children over nine months of age, during the war period when the disease may be brought in from states where compulsory vaccination is not provided by law.
- 645 The Home Front Nutrition. Describes many resources for home meals which are at hand without cost.

1. The first part of the report deals with the general situation of the country and the progress of the work during the year.

2. The second part deals with the results of the work during the year.

3. The third part deals with the results of the work during the year.

4. The fourth part deals with the results of the work during the year.

5. The fifth part deals with the results of the work during the year.

6. The sixth part deals with the results of the work during the year.

7. The seventh part deals with the results of the work during the year.

8. The eighth part deals with the results of the work during the year.

9. The ninth part deals with the results of the work during the year.
